RivetWorks

Last Modified on 09/08/2026 5:16 am PDT

RivetWorks is Rivet School's very own remote externship program. Rivet School fellows are matched with a real business to complete an 8 week paid consulting project. The program is designed for fellows who aren't able to participate in traditional internship programs and may need a different type of professional experience on their resume. Upon completion of the program, you'll receive a total of $1,000 for your work. It only runs at certain times of the year, so reach out to your College Coach to find out when the next round will take place or fill out this interest form and a Career Coach will reach out to you with more details!

Note: The RivetWorks program is on pause for 2026.
