

RivetWorks is Rivet School's very own remote externship program. Rivet School fellows are matched with a real business to complete an 8 week paid consulting project. The program is designed for fellows who aren't able to participate in traditional internship programs and may need a different type of professional experience on their resume. Upon completion of the program, you'll receive a total of \$1,000 for your work. It only runs at certain times of the year, so reach out to your College Coach to find out when the next round will take place or fill out this [interest form](#) and a Career Coach will reach out to you with more details!

## RivetWorks

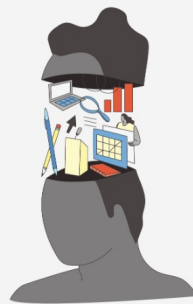

Rivet School's 8-week paid remote externship program

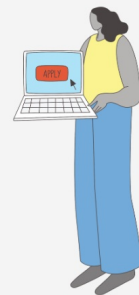

**Work directly with a project mentor as a paid consultant for a real business**

**Improve your research, writing, and presentation skills**

**Gain insight into new career paths**

**Add a unique professional experience to your resume that you can talk about in future job interviews**
