Credential Program Matrix

Last Modified on 09/02/2026 2:52 pm PDT

In order to become a teacher in California, you must complete a teaching credential program after you earn your BA. Our credential program matrix is a spreadsheet that highlights important dates and cost before financial support for our current partner programs.

If you want more details about a specific credential program, reach out to the contact listed in column F and let them know you're a Rivet School Fellow!

Click here to view the credential program matrix in a separate tab.
