Alumni Industry Map: Before & After

Last Modified on 11/13/2026 4:07 pm PST

Are you curious about the industries Rivet School alumni work in? Below you will find a data visualization that shows a map of the industries our alumni were working in when they joined our program (before) and where they landed 9 months after earning their bachelor's degree (after). *Tip: If you hover over the lines, it will tell you the exact number of graduates took that route.*

Industry	Definition
Education: Teaching	Works directly with students on instruction in a classroom or small group
Education: Non-Teaching	Roles in schools, districts, and colleges that support students and operations without leading instruction
Healthcare: Non-Clinical	Business, finance, operations, IT, and management roles in healthcare settings (managers go here unless likely licensed clinicians)
Healthcare: Clinical	Hands-on patient care or direct clinical support
Youth Development & Community Services	Mission-driven organizations serving youth, families, and communities
Government & Public Sector	Public agencies outside of education and healthcare
Business, Finance & Professional Services	Banking, HR, facilities services, consulting, and small business ownership
Technology	Roles at software and tech-enabled companies, regardless of function
Transportation, Logistics & Aerospace	Moving people and goods, plus aerospace and auto
Construction & Skilled Trades	Building, industrial, and outdoor trades work
Hospitality, Food & Fitness	Food service and lodging management
Retail & Consumer Goods	Selling or distributing products to consumers
Media, Creative & Entertainment	Creative, marketing, and sports and entertainment organizations
